

January 26, 2021

Greetings Family Members, Loved Ones and Team Members,

This letter is to inform you that we have completed this week's antigen testing and I am happy to report we have zero new positive COVID-19 cases.

The Virginia Department of Health (VDH) has recommended we continue to follow the current testing protocol, which requires us to test all team members weekly and residents only if symptomatic. The next round of testing for team members will be Monday, February 1.

Visits from families and friends have been successful thus far. Please remember to call our Concierge at 540-246-0888 if you would like to schedule a visit. Please also remember that we will be happy to continue to assist families to connect with loved ones via telephone, email, virtual meetings, Facebook and Facetime.

Thank you for your continued love and support. I will keep you informed of any changes to our current testing protocol or if there are any new positive COVID-19 cases.

With warm regards,

Cristen Hackenbracht
Executive Director
