

January 5, 2021

Dear Family Members, Loved Ones, and Team Members,

This letter is to inform you that, today, Bellaire at Stone Port completed this week's antigen testing for team members and for our Assisted Living residents, excluding Memory Care. I'm excited to report there are no new positive COVID-19 cases. Our current number of positive cases remains at three, all team members.

The Virginia Department of Health (VDH) is continuing to recommend testing every 3-7 days until there are no new positive cases for a 14-day period. The next round of testing for Team Members and Assisted Living Residents, excluding Memory Care, is scheduled for Monday, January 11 and Tuesday, January 12.

Since we are continuing to test next week and currently have 3 team members who are COVID- positive, our visitation restrictions must remain in place. We will continue to adhere to current protocol in our community including social distancing, wearing personal protective equipment, screening all team members upon reporting to work and holding all meals and one-on-one activities in apartments.

We do recognize that family contact and involvement are essential during these times, and we will continue to do everything we can to keep our families and residents engaged. We will continue to assist families to connect with their loved ones in creative ways, including telephone, email, virtual meetings, Facebook and Facetime.

We are thankful for our team members who are being so careful and for our family members who continue to be supportive of the restrictions we have in place. Please call us at 540-246-0888 if you have any questions.

Happy New Year,

Cristen Hackenbracht  
Executive Director
