

September 28, 2021

Greetings Resident Families, Residents and Team Members,

We completed our most recent round of community-wide testing yesterday. I am excited to report that we have no new positive cases. Currently we have 3 total active positive cases in our community, one team member and two residents.

We continue to follow the Virginia Department of Health's recommendations. Contact and droplet precautions are still in place for each resident who tested positive for COVID-19. Additionally, team members who've tested positive will be unable to return to work until they've quarantined for a minimum of 10 days and are showing an improvement of symptoms and are fever-free for 24 hours without the use of fever reducing medication. Our next round of testing will take place Friday, October 1.

We will continue to pause all communal dining, group activities and indoor visitation. Visitors are welcome to enjoy outdoor visitation with proper social distancing and masks, window visits and virtual visits through Facetime or Zoom. Please call our concierge at 540-246-0888 to arrange your visit. Visits can be held daily from 10am-6pm.

Sincerely,

Cristen Hackenbracht, ALFA, CDP  
Executive Director
