

September 20, 2021

Greetings Resident Families, Residents and Team Members,

As we have continued to test all team members, we have had one additional positive test result. This team member last worked on 9/16/21, and is unvaccinated. The team member will be quarantined at home. The Virginia Department of Health has been notified and has no additional recommendations.

Tomorrow, 9/21/21, we will re-test all residents and team members. We will continue to pause all visitation, communal dining and activities pending the completion of our community-wide testing. I will update you as soon possible. Thank you for your patience and understanding.

Sincerely,

Cristen Hackenbracht, ALFA, CDP
Executive Director
